Lulu.com, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Dr. Max Manwaring wrote this monograph in response to the fact that today over half the countries in the global community are faced with one variation or another of asymmetric guerrilla war. Insurgencies, internal wars, and other small-scale contingencies (SSCs) are the most pervasive and likely type of conflict in the post-Cold War era. That the United States will become involved directly or indirectly in some of these conflicts is almost certain. The Balkans, Colombia, Mexico, Somalia, and the Philippines are only a few cases in point. Yet, little or no recognition and application of the strategic-level lessons of the Vietnam War and the hundreds of other smaller conflicts that have taken place over the past several years are evident.
