We need to seamlessly integrate IPR in the standard graduate/post graduate courses in science, technology, commerce, creative arts, etc., without over burdening the students with law -Dr Prabuddha Ganguli, CEO, VISION-IPR Nanotechnology Intellectual Property Rights: Research, Design, and Commercialization offers an overview of the dynamics of development and commercialization in nanotech, where strategic integration of IP, RD, and commercialization has become imperative. It demystifies issues of intellectual property rights (IPR) associated with research, design, technology transfer, and commercialization of innovations in technology-led areas such as nanotech. Gives all stakeholders vital information to instill confidence by helping them better understand their individual roles in the IPR process Designed for a diverse readership that may not have background knowledge of the legal nuances of IPR, this book clearly articulates techno-legal aspects of nano-related innovations to aid their effective integration into businesses. This resource stands apart by using numerous case studies and pictorial illustrations, addressing aspects ranging from ideation to commercialization of IP-enabled nanotechnology. It illustrates the evolving patent landscape in nanotechnology, explores the international patent classification system, and details patenting procedures in a range of jurisdictions, including search for nanotechnology prior art and creation of search strategies. The authors discuss patent-led nanotechnology businesses, presenting a wide range of case studies that address construction of valuable patent portfolios, growth of start-ups, and consolidation of IP-led nanobusinesses through mergers, acquisitions, joint ventures, strategic investments, etc. They also cover patent litigations in nanotechnologies and the significance of strategically crafting agreements related to IP transactions. In addition, they address compliance with contractual obligations, the importance of well-drafted patent specifications, and sensitive aspects of conducting techno-legal due diligence prior to the development and...
